

Buying and selling vehicles can be hard work ...

“ The VIR is a very simple and effective process for us when we are trading or purchasing vehicles. The VIR’s automatic analysis of a vehicle’s history takes away any room for human error and adds great value to the report. We are able to tell straight away if there is anything we need to know about, and we also have all the correct vehicle details for further use. ”

Dave Murphy, Used Vehicle Sales Manager, Giltrap City Toyota, Mt Wellington

“ My experience with the recently upgraded Motorweb site has been nothing but positive with the automatic history check proving very cost effective by identifying not only what enquiry was made but also when it was made thus eliminating duplication. An already easy to use layout has been improved with more functions available from one page including make and model searches in addition to the usual registration search. ”

Tony Morgan, Dealer Principal, Coutts Mercedes Benz

“ At last - accurate appraisal forms every time... Thanks MotorWeb! ”

✔ Motorcheck

Get the current registered owner and vehicle details for updating records and processing other transactions.

✔ Debtor Search

Check what other secured financial commitments a customer may have before lending money on vehicles.

✔ Driver Check

Loan cars or test drives, instantly confirm your customer's driver license details are accurate and valid. Don't get caught out by a disqualified or suspended driver.

Meet your Legal Requirements
